## CONSTRUCTION FEATURES

When it comes to our process, we have it down to a fine art. Always mindful of keeping the natural appearance of our wood, we reinforce boards, sand them down, and then stain and shade them to obtain the desired color tone giving the furniture a one-of-a-kind appearance. Aiming to bring out wood's natural beauty, our goal has always been the same: when your new dining room centerpiece arrives at your door, that it exceeds your expectations and gives you the same feeling of pride and joy we had in creating it.

## CANADEL'S EXCLUSIVE PROTECTION

*Canadel has developed a unique protection made with a catalyzed lacquer base.*

### CORNER BLOCKED

All chairs have corner blocks on all four sides—blocks attached with glue and a bolt for a tight joint and added frame strength. They are designed and tested to a capacity of 450 pounds.

### MORTISE AND TENON

The strongest and stable joints. No screws are needed, the chair is assembled with glue.

### SWIVEL CHAIR

A swivel option is offered on selected models. It is a memory swivel mechanism that allows the chairs to turn 180 degrees.

### GLASS TABLE TOP

We use 12 mm thick tempered glass. The sides are polished and the corners are secure.

### BUFFET

The drawers and hinges have integrated shock absorbers and are adjustable. The drawers have a metal frame. Sideboards are equipped with levelers.

### MATTE FINISH

Our matte finish is the smoothest one offered at Canadel. It is neutral, timeless, and can match many different styles.

### GLIDE

Teflon glides are used on most of our chairs, stools and benches. They are securely nailed to each leg, make moving furniture around easier on wooden, ceramic, and even carpeted floors, and provide excellent protection.
