# CANADEL'S EXCLUSIVE PROTECTION

*Canadel has developed a unique protection made with a catalyzed lacquer base.*

## CONSTRUCTION FEATURES

When it comes to our process, we have it down to a fine art. Always mindful to highlight the beauty of wood, we take care to give it a unique and natural look. Each piece, meticulously crafted and hand-finished by our experienced artisans, is our guarantee of certified quality and durability. Aiming to create exceptional custom furniture, our goal has always been the same: that you experience the same feelings of pride and joy in receiving your furniture as we had in creating it.

### CORNER BLOCKED

All chairs are corner blocked on all four sides by attaching blocks with glue and a screw for a tight joint and added frame strength.

### MORTISE & TENON

It's considered to be one of the strongest and stable joints. No screw are needed, it is assembled with glue.

### CORNER LEG BRACING

While each table leg is held firmly in place by a strong corner bolt system, legs can still be easily removed for shipping or moving around.

### STRETCHER

A straightening bar is placed under the table top and also under the extra leaf to prevent warping.

### SLIDE

Rack and pinion slides below the tabletop provide strength as well as a place to store leaves—so easy to use that one person can open both ends at once.

### MATTE FINISH

Our matte finish is the smoothest one offered at Canadel. It is neutral, timeless, and can match many different styles.

### ANTIQUE FINISH

The antique finish is applied subtly, using our unique techniques and tools which help us create the appearance of slightly-aged wood.

### GLIDE

Teflon glides are used on most of our chairs, stools and benches. They are securely nailed to each leg, make moving furniture around on wooden, ceramic, and even carpeted floors easier, and provide excellent protection.
